Currently Learning: Data Analytics, AI

Soft Skills: Customer Service, Problem-Solving, Teamwork, Quick Learner, Fast Adaptability to New Software

## Experience

**Founder, Shopify Dropshipping Store** 2022 - 2023

- Launched and managed a Shopify dropshipping store, from product setup to storefront design.
- Ran paid marketing campaigns on social media (TikTok) to drive traffic and sales.
- Handled store operations, customer queries, and order fulfillment.

**Content Writer, Remote - Techno Pixels** 2023 - 2024

- Wrote content for the company website; several blog posts ranked on Google search.

**Electro Monitoring System (EMS) - Academic Final Year Project** 2025 - 2026

- Built the system using an ESP32 microcontroller and PZEM-004T sensors to measure electricity usage in real time.
- Set up the backend with Firebase Realtime Database and Firebase Authentication to store and secure the data.
- Created a web dashboard so users can see usage trends and make smarter decisions about their electricity.
- Wrote complete project documentation, including functional requirements, use cases, and UML diagrams, following IEEE standards.

**Intern, Police Line** 2025

- Built communication and teamwork skills by coordinating daily with staff and the public in a structured, discipline-focused environment.
- Took part in group discussions on current affairs, strengthening awareness of national and social issues.

**Summer Intern, ISPR** 2026

- Collaborated with a team on assigned tasks, developing strong communication and teamwork skills in a professional setting.
- Participated in group discussions on current affairs, building analytical and presentation skills.
